“The workshop will explore a modern approach to water media, rather than just the continuation of the tradition. Through demonstrations and one on one experiences, the students will be encouraged to approach this medium in a bold, relentless and aesthetic way.”

In 2009 Masi won the “High Winds” award in the annual AWS Exhibit, he is a recipient of “The Dolphin Award” and numerous other awards during his career. He has recently taught a popular series of workshops in New York City. To see more of his work, go to: www.antoniomasi.com
